NCC

CERTIFICATIONS & TRAINING

Full Stack Java Development Training
QSpiders, Chennai – Chromepet

- Completed hands-on training in Java, SQL, HTML, CSS, and JavaScript, building strong full stack development capabilities through real-world projects.
- Actively participated in industry-led workshops and seminars, enhancing knowledge of modern web development trends and best practices.

OBJECTIVE

Enthusiastic Computer Applications graduate seeking a web developer role. Strong in Java and SQL. Eager to contribute to real-world projects, solve problems, and grow in a collaborative environment.

SKILLS

JAVA:

- Strong understanding of Object-Oriented Programming (OOP) principles: inheritance, polymorphism, encapsulation, and abstraction.
- Hands-on experience with Java Servlets for handling HTTP requests and sessions, along with exception handling using try-catch and custom exceptions.

SQL:

- Skilled in query optimization, analyzing execution plans, and database design
- Proven experience in SQL query writing using of subqueries, joins, group functions and analytical functions

AGILE METHODOLOGY:

- Experienced with Scrum roles, ceremonies, and artifacts
- Facilitated daily stand-ups, sprint planning, and retrospectives, which improved team collaboration and project transparency

PROJECT: (Banking Application System)

- A web-based banking application that enables users to manage their accounts, apply for loans, and perform transactions securely.
- Tech Used:** Java, PostgreSQL, MVC Pattern.
- Key Features & Responsibilities:** Implemented the MVC architectural pattern by separating concerns across the Model (data and business logic), View (console interface), and Controller (request handling), ensuring modular and maintainable code structure.

WORK EXPERIENCE:

Backend Developer, Twozo Technologies – Tirunelveli
(Jan 2025 – Jun 2025)

- Developed RESTful web services using Java and Spring Boot for scalable backend functionality.
- Wrote optimized PostgreSQL queries and implemented CRUD operations.
- Identified and resolved 10+ critical bugs, improving system uptime by 25%.

Java Backend Developer Intern, Twozo Technologies – Tirunelveli
(Nov 2024 – Dec 2024)

- Built APIs using Java, Spring Boot, and followed MVC design principles.
- Implemented 10+ CRUD operations in PostgreSQL, ensuring 100% data integrity and faster access.
- Applied Java Collections like HashMap, ArrayList, and HashSet in backend logic.
